MAMBO SYSTEMS & ANALYTICS · TECHNICAL HANDOVER & SPECIFICATION

# System Architecture & 100% Code Ownership Handover Agreement

*Project: Re:kula Official Web Platform | Date: 23 October 2026 | Status: Fully Developed & Deployed*

---

## 1. Parties to the Agreement

This System Architecture Specification and Intellectual Property Handover Agreement is entered into by and between the following parties:

| Service Provider (Developer) | Client (System Owner) |
|---|---|
| • **Entity:** Mambo Systems & Analytics<br>• **Principal:** Peterson Mambondimumwe<br>• **Email:** u19094290@tuks.co.za<br>• **Website:** www.mambondimumwe.com<br>• **Location:** Pretoria, Gauteng, South Africa | • **Entity:** Re:kula (Pty) Ltd<br>• **Principal:** Shawn Maluleke (Founder & Lead Educator)<br>• **Email:** shawn.kulanigt@gmail.com<br>• **Role:** Founder & Lead Educator<br>• **Location:** Pretoria, Gauteng, South Africa |

## 2. 100% Code & Intellectual Property Ownership Grant

Mambo Systems & Analytics hereby guarantees and certifies that upon payment of the agreed once-off development fee, full 100% legal, equitable and intellectual property ownership of the Re:kula web platform and all associated assets is completely transferred to Re:kula (Pty) Ltd.

✓ **Full Source Code Ownership:** Re:kula (Pty) Ltd holds complete ownership of all custom frontend and backend source code, styles, configuration files, and components written for this project.

✓ **No Recurring Licensing or Royalty Fees:** There are zero software licensing fees, monthly maintenance obligations, royalties, or vendor lock-in imposed by Mambo Systems & Analytics. Re:kula owns the code outright.

✓ **Right to Modify & Expand:** Re:kula (Pty) Ltd possesses the absolute right to alter, enhance, migrate, rehost, sublicense or appoint any third-party developer to work on this codebase at any time in the future.

✓ **Proprietary Brand Materials:** All logos, photography, pedagogical descriptions, domain assets, curricula frameworks and marketing texts remain the exclusive property of Re:kula (Pty) Ltd.

## 3. Source Code Repository & Hosting Infrastructure

The system has been architected according to modern enterprise web standards, utilizing Git-based version control and automated global edge hosting.

| | |
|---|---|
| **GitHub Repository** | https://github.com/PetersonMambondimumwe/Rekula-Website.git<br>Main Branch: main (Production tracking) |
| **Cloud Hosting Platform** | Vercel Enterprise Edge Network<br>Features: Automated CI/CD deployments on Git push, global CDN, automated SSL/TLS certificates, zero-downtime upgrades, instant rollbacks. |
| **Deployment Pipeline** | Fully automated Continuous Deployment (CI/CD). Pushing verified commits to the GitHub main branch triggers an automatic production build and deployment on Vercel. |
| **Custom Domain & DNS** | Connected to the official Re:kula domain with complete DNS propagation, HTTP/2 multiplexing, and automated HTTPS security. |

## 4. Technical Stack & Component Architecture

| Layer | Technology | Architectural Function |
|---|---|---|
| **Frontend Core** | **React 18.3+ & TypeScript** | Component-driven modular architecture with strict static type-checking, preventing runtime null-reference errors. |
| **Build System** | **Vite 6+** | High-performance ES module bundler producing optimized production assets with Rollup chunk splitting and Gzip compression. |
| **Styling System** | **Tailwind CSS & Token System** | Custom Warm-Dark palette (Void #070D14, Surface #111D2A, Soft Blue #4C86A8, Warm Cream #F3EADB, Cork Border #203448). Fully responsive across all devices. |
| **3D WebGL Engine** | **Three.js & Canvas Stage** | Interactive real-time 3D viewport rendering purified graduation cap and kinematic human hand with automatic momentum easing and float dynamics. |
| **Motion Background** | **Seamless Loop & ShinyText** | Custom dark-blue looping motion background integrated with CSS text background-clip shimmer typography driven by Framer Motion. |
| **Database Layer** | **Neon Serverless PostgreSQL** | Scalable cloud PostgreSQL database storing parent consultation requests, institutional enquiries, educator applications, and volunteer submissions. |
| **Email Dispatcher** | **Resend Transactional API** | Automated dual-dispatch pipeline: instantly delivers detailed structured alerts to shawn.kulanigt@gmail.com and sends elegant HTML branded receipts to clients. |

| | | |
|---|---|---|
| **File Storage** | **Integrated Storage Pipeline** | Secure upload pipeline supporting report cards, learner diagnostic documents, and educator CVs with strict MIME-type validation. |

## 5. Handover Certification & Formal Sign-Off

By signing below, Mambo Systems & Analytics certifies the full technical handover of the software repository, and Re:kula (Pty) Ltd accepts delivery and confirmation of 100% intellectual property and code ownership.

| **Delivered by (Mambo Systems & Analytics):** | **Accepted & Received by (Re:kula (Pty) Ltd):** |
